## 42" - 54" Workstations

Royal Series Underbar

KR24-W42L-10 shown

### Standard Features

- All stations are 24" depth front-to-back
- Built-in 10 circuit cold plate
- 12" deep ice bin
- 18" blender dump sink with Royal Series faucet
- Sound deadened single speed rail
- Removable bottle wells
- Side splash between ice bin and dump sink

### Specifications

|                                   |                                                                                                                                                                                                               |
|-----------------------------------|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Materials</b>                  | ▪ Interior (Ice Bin): 20 gauge stainless steel. 12" deep ice bin section                                                                                                                                      |
|                                   | ▪ Blender Shelf: 22 gauge stainless steel                                                                                                                                                                     |
|                                   | ▪ Dump Sink (Blender): 20 gauge stainless steel.                                                                                                                                                              |
|                                   | ▪ Drainboard: 20 gauge stainless steel                                                                                                                                                                        |
|                                   | ▪ Front Apron: 20 gauge stainless steel clad over 20 gauge galvanized steel                                                                                                                                   |
|                                   | ▪ Backsplash: 20 gauge stainless steel                                                                                                                                                                        |
| <b>Drains &amp; Plumbing</b>      | ▪ Back & Bottom: 20 gauge galvanized steel                                                                                                                                                                    |
|                                   | ▪ Hot & Cold Water: 1/2" IPS                                                                                                                                                                                  |
|                                   | ▪ Ice Bin with Cold Plate: 1/2" IPS Drain connection. 4" PVC tailpiece provided. PVC tailpiece required to avoid condensation through metal to metal contact.                                                 |
|                                   | ▪ Ice Bin with No Cold Plate: 1" IPS Drain connection                                                                                                                                                         |
|                                   | ▪ Drainboard: 1" IPS drain connection                                                                                                                                                                         |
| <b>Cold Plate</b>                 | ▪ Dump Sink: 1-1/2" IPS drain connection                                                                                                                                                                      |
|                                   | ▪ Cast aluminum post mix plate with 10 circuits. Plate is sealed into bottom. Each circuit is 5/16" OD stainless steel tubing. Two full with remainder to be half circuits. Bump and swedge fittings on ends. |
| <b>Tubing Access (Cold Plate)</b> | ▪ 3/4" x 3-1/2" cutout in left side of backsplash                                                                                                                                                             |
| <b>Bowl Size (Dump Sink)</b>      | ▪ 18"W Dump Sink bowl size: 14" x 10" x 7"                                                                                                                                                                    |
| <b>Electrical (Blender)</b>       | ▪ Duplex outlet located underneath blender shelf                                                                                                                                                              |
| <b>Insulation (Ice Bin)</b>       | ▪ Foamed-in-place polyurethane                                                                                                                                                                                |
| <b>Faucet</b>                     | ▪ 4" Center wall or deck mount faucet with 1/4 turn ceramic cartridge valves                                                                                                                                  |
| <b>Backsplash</b>                 | ▪ 6-1/2"H x 1-1/2"D                                                                                                                                                                                           |
| <b>Side Splash</b>                | ▪ Included when Ice Bin is adjacent to Blender Dump Sink                                                                                                                                                      |
| <b>Legs</b>                       | ▪ 1-5/8" tubular 16 gauge stainless steel legs with grey plastic bullet foot                                                                                                                                  |

### Optional Accessories

| Model  | Description                |
|--------|----------------------------|
| KR-101 | Condiment Tray             |
| KR-103 | Stainless Steel Divider    |
| KR-303 | Left and Right Side Splash |
| KR-311 | Right End Splash           |
| KR-310 | Left End Splash            |

| Model   | Description                                                      |
|---------|------------------------------------------------------------------|
| SC"XX"H | Partial Sliding Cover for Ice Bin ("XX" denotes size of Ice Bin) |
| SC"XX"F | Full Sliding Cover for Ice Bin ("XX" denotes size of Ice Bin)    |
| KR-501  | Towel Ring                                                       |
| 30-160  | Perforated Dump Basket                                           |
| KR-806  | Upgrade: 6" Longer Stainless Steel Legs                          |
